Is Examined by a Party in Kentucky's Oil Field.

Georgetown, Ky.—A party of 11, in-
cluding a geologist, explored the
new cave at the Indian oil refinery
chemist C. C. on, who expected to lead
the party, was detained by pressing
business. Light passages were pen-
etrated to a distance of about 200 feet
into the cave, the one which leads
near Elkton river, and only two ad-
mitted to get through the exuding
moss, which almost suffocated them
when ten feet in. There are strong
indications here of a good supply of
natural gas. A correspondent, accom-
panied by a boy assistant, followed
a western passage beyond the gas-
ous tunnel and succeeded under a
great bowler, coming into an immense
cave 20 feet high. This led seem-
ingly straight across the plant's
grounds southerly toward town. After
going about 500 feet he saw an appar-
ently unlimited cavern, and he had to
turn back because of falling lights.
There was no sign of animal life.

SETTLEMENT EFFECTED between Dark Tobacco Growers and the Independents.

Paducah, Ky.—The fight between
dark tobacco growers and independ-
ent dealers in Laysan and Callwell coun-
ties, Kentucky, which resulted in the
own of Princeton being literally ar-
rested and two enormous barns with
contents of tobacco burned, with losses
of thousands of dollars in property, in
Paducah, Edinburg, Princeton and
Kuttawa in the last several months,
was settled at Kuttawa.
Association members agreed to see
that no more "night rider" raids were
made, and that anonymous letters to
independents threatening harm to body
and property to force them into the
association, would cease. As a result
of the settlement four big tobacco
farms invaded Kuttawa and are doing
business.

KENTUCKIANS, Well Known as Politicians, Have Formed a Racing Firm.

Lexington, Ky.—A new racing firm
composed of well-known Kentucky poli-
ticians has just registered with the
Eastern Jockey Club. The members
of the firm are J. Morgan Chinn, son
of Col. J. P. Chinn and brother of Phil
Chinn, who is now clerk of the court
of appeals at Frankfort; Polk Laffoon,
D. P. Richardson, J. L. Weltzel and
Polk South. They are registered as
owning each a one-fifth interest in the
business, which is to be conducted in
the name of South. They have in
training to start with the two-year-
olds Noddy, Girl, Flora Ray, Roberta
Moore, Danette, Lassing and Snake
Marry.

NEVER DEFEATED For Office Was Senator Cammack, Who Seeks Circuit Judgeship.

Frankfort, Ky.—While here, State
Senator J. W. Cammack, of Owen
county, announced that he would be
a candidate for circuit judge in the
district composed of Boone, Grant, Ow-
en, Carroll and Gallatin counties.
Judge Menfee, of Williamstown, who
was appointed by Gov. Beckham as
Judge Lassing's successor, will oppose
Senator Cammack. It is said the com-
mittee favor a primary. Senator
Cammack won his spurs in the senate
fighting for the county, and had an op-
tion bill and has never been defeated
for an office.

COUNTY TO PUT UP \$100,000 To Finance the Pooling of the 1906 Tobacco Crop.

Warsaw, Ky.—At a special meeting
of the board of control of the Burley
Leaf Tobacco Association of Gallatin
county, held here, representatives of
the several banks of the county pro-
posed to put up \$100,000 to finance the
pooling of the 1906 tobacco crop. The
proposition was agreed upon, and the
tobacco will begin to come to the ware-
houses about February 15. Everything
points to the ultimate success of the
farmers' movement, so far as this
county is concerned.

Will Handle Tobacco. Lexington, Ky.—The Fayette board of control of local branch of the Amer- ican Society of Equity, has filed articles of incorporation here. "The ob- ject of the organization, it is stated, is to handle the tobacco in connection with the Burley Tobacco society, and to see that each farmer gets a fair price for his product. The largest amount of indebtedness to be incur- red is \$20,000.

Sixty-Barrel Well. Burkeshville, Ky.—At a depth of 600 feet the New Domain Oil and Gas Co. brought in another good well on the Tompkins farm on Pannis creek. The well pumped 60 barrels in 24 hours. A third well will be drilled on this farm at once.

Refused To "Squelch." Middleboro, Ky.—John Scott plead- ed guilty to the charge that he mur- dered like Napper and was given a life sentence in the penitentiary. Scott says he was hired to kill Napper, but refused to say by whom.

HUNTING FOR TROUBLE. "I've lived in California 20 years and am still hunting for trouble, in the way of burns, sores, wounds, boils, cuts, sprains or a case of piles that Buelen's Arnica Salve won't quickly cure," writes Charles Walters, of Alleghany, Sierra coun- ty. No use hunting, Mr. Walters; it cures every case. Guaranteed by all druggists 25.

POCKET OF COAL Exposed By the Waters of the Licking Near Kenton.

Kenton, Ky.—For several years
small lumps of coal have been found
in the bottom of wells in this locality,
and about a year ago some workmen
excavating sand on the farm of Mrs.
Mason, struck a pocket containing
about two bushels of coal in small
lumps averaging the size of a hen's
egg. This was struck at the depth
of 20 feet.

After the Licking river, which had
been out of its banks for the previous
ten days, had fallen to ordinary depth,
a steep bank that borders on the land
of H. W. Brown, broke in near the
county road that leads from here to
the ferry connecting Campbell county
with this place. The break and slip
is about 300 feet long and from top to
bottom some 150 to 200 feet.

Charles Baker, a tobacco buyer for
the Hamilton Tobacco Co., of Cov-
ington, managed to climb down the break,
which is about 50 feet deep on the land
side, and found at the bottom a clear
stream of water about four feet wide
and one foot deep flowing from under
the land. This was carrying with it a
continuous flow of small lumps of coal.

KILLS WRONG WOMAN. Negro Murderer Is Then Shot Down in Revenge.

Marking, Ky.—Pate Jackson, 26, and
Lucy Harris, 22, negroes, were killed
in a series of tragedies at Norton, a
hamlet east of here. The particulars,
as received, are as follows: The Har-
ris woman and a girl named Dale came
on a night train from Appalachia;
Jackson, who expected them, secreted
himself under the house occupied by
the Harris woman, with the intention
of killing the Dale girl.

As the two women approached Jack-
son fired, killing the Harris woman
instead. Bob Crawford, another ne-
gro, hearing of the murder, walked to
Jackson's own home and shot him
dead. Jealousy was the cause of the
tragedies.

PENANCE FINISHED By Martin, Who For Seven Years Has Gone Hatless and Barefooted.

Lexington, Ky.—Claybourne Martin,
known throughout Kentucky as the
"Bronze Christ," because he walked
the streets barefooted and with his feet
bare, no matter how cold or hot the
weather, has finished his seven years
penance and announces that he will
now wear his hat and shoes as other
people.

He says that seven years ago the
Lord told him he had sinned and that
he should repent by suffering. He said
the spirit told him to bare his feet
and head and make no complaint for
seven years. He was run out of a
number of towns for his strange ac-
tions.

EVERY BONE In the Electrocuted Engineer's Body Was Fractured.

Somerset, Ky.—Joseph Smith, en-
gineer at an electric light and power
plant here, was electrocuted when at
work. It is thought that he attempted
to close the house and street circuits
at the same time.

Smith was hurled several feet and
every bone in his body was broken.
Twenty-two hundred volts passed
through him.

LEFT A NOTE Saying He Killed His Stepfather De- fending His Mother.

Paducah, Ky.—Because his step-
father, Charles Lewis, assaulted his moth-
er, Joe Faulkner, a tile carrier, who
came home sick, went to the home of a
neighbor, secured a shotgun, and re-
turning to the house, blew Lewis' head
off. Faulkner escaped, leaving a note
explaining that he was defending his
mother.

Loose Suit To Recover Fees. Frankfort, Ky.—In the Franklin cir- cuit court Judge Stout sustained a de- murrer to the petition in the case of R. W. Bingham, county attorney of Jefferson county, against S. W. Hager, state auditor, in which plaintiff sought to recover fees for sitting with the au- ditor's agent in Louisville in the pro- secution of tax suits in the county court. His counsel declined to plead further and will take an appeal to the court of appeals for a final construction of the statute under which the action was instituted.

Insurance Man Hurt. Maysville, Ky.—Michael Sweeney, local agent for the Western and South- ern Insurance Co., was struck by a C. & O. freight train, and probably fa- tally injured. He has a family resid- ing here.

Whipped For Cruelty. Morgantown, Ky.—About 30 masked men called out Jesse Phelps and took him about one-half mile from this place and whipped him severely. Phelps was accused of cruelty to his 2-year-old child by sticking her with pins and burning her with a hot poker.

A BILL fixing a flat passenger rate of two cents a mile was passed by the Indian Senate and will go to the House for consideration. Since the railroads have been relieved of so many dead heads who rode on passes, a one cent reduction will not very likely result in a decrease in earnings, providing those who once rode on passes continue their travel and pay their fare.

THE Somerset Times, Woodson May and Cecil Williams' new paper, made its appearance Friday. A six column quarto, full and running over with choice reading and attractively set advertisements, a thing of beauty and we trust a joy forever.

Bros. Embury & Richardson, of the Danville News, are putting the big pot in the little one since they got their new press by coming out with a three color print.

SOME ROCKCASTLE HISTORY

One of the SIGNAL's valued subscribers, W. H. Williams, of Aztec, N. M., in a recent letter to his brother, D. N. Williams, of this place, after expressing his appreciation of the articles on above subject, which have been published in this paper, says:

"Tell Mr. Maret in giving the early history of Mt. Vernon and Rockcastle county, not to forget that James McCall had a large tanyard just below the bridge, (Griffin's mill) working 15 or 20 negro men, all bossed by a Mr. Albright, and that Lance Smith had a horse flouring mill 200 yards west of the railroad depot, and J. T. Hyronemus had a carding machine that was run by tread wheel power, just about where M. J. Miller's store building now is, [Mr. Williams only missed the location 40 feet. Ed.] that George Houk & Sons had a wagon shop just about where Fish's store is [Here is where Mr. Williams missed it; this space was occupied by Elkin Tavern, later run by Thomas Smith up to about 1870.—Ed.] and Stephen Langford ran a hotel just above the court house on the next street; Reubin H. Elkins ran a hotel on Main street that was afterward run by Thos. J. Smith. That Dr. Josiah Joplin, where Miller Hotel now stands, started the first drug store in Mt. Vernon; that Dr. Bryant, from Crab Orchard, practiced in Mt. Vernon in 1851 and a part of 1852, but that the county was so healthy that Dr. Joplin was able to attend to all the patients and take care of his drugstore. In the fall of 1850 some of the best citizens of Rockcastle county moved to Buchanan county, Missouri, among them were Jonathan, James and Logan Dysart, Judge William Carson, his sons, James, Jonathan and William; Larkin Kirtley and James Kirtley, brothers of W. H. Kirtley, father of Mrs. W. M. Poynter. These are just a few of many early recollections."

Speaking of, McCall's tanyard there is, yet in existence, after more than 60 years, pieces in position of the old vats in the old tanyard in

the bottom near residence of D. N. Williams.

R. A. Herrin first introduced the "rafter cornice" finish in this county about 1888. This finish suspended the old styled "box cornice" which had been in use since Noah corniced his ark. Lige caught the idea in Illinois.

R. S. Martin took the prize at St. Louis world's fair on manufactured tobacco.

R. S. Martin, Brodhead, was the first man in Rockcastle to use and introduce commercial fertilizer within our borders.

While dynamiting, a large rock fell through the roof one of the camp houses severely crushing a colored woman.—Jim Taylor was in Mt. Last week a man stepped up to us and said he would pay us every cent he owed us if he lived till Saturday night. We presume the man died. Another man said he would pay us in a day or two as sure as we were born. Query: Did the man lie or were we never born? Another man said he would settle as sure as shooting is very uncertain. Another man said he hoped to go to the devil if he did not pay us within three days. Haven't seen him since: suppose that he has gone but trust that he did not hope in vain. Quite a number said they would see us to-morrow. They must have been stricken blind, or to-morrow has not come. One man told us six months ago that he would pay us soon as he got some money. The man would not lie, of course he has not got a cent since.

I WILL GIVE THIS BEAUTIFUL PICTURE

To one person at every postoffice. The first one who writes will get it. It is called "Fruit and Flowers." The rich fruits are so natural that you cannot tell that they are not real. The flowers are perfect. The picture is 10 inches long and 16 inches wide, just right for framing, and it will make a handsome addition to any home. BE THE FIRST! You will get it without delay and without cost. The only one who can give you a picture and ask you to get one of your neighbors to send me 10 cents for something that is worth 10 cents. I am a publisher, and I have adopted this plan of advertising my business. It is an absolutely new and original way of advertising, and if you are the first to write from your postoffice, you will be the one to profit by it. Remember, now, I do not expect you to send me one cent of money. I will not ask you to do a lot of work for me, and the picture will positively be sent to you by return mail. I will then explain my plan in full to you and ask you to show it to ONLY ONE of your neighbors and get that neighbor to send me ONLY 10 CENTS. I will give you much for the time that the first one you see will jump at the chance. I will treat you absolutely to do this little favor for me, and I know you will be delighted to do it when you see the picture. Don't let any body get ahead of you, but write today, enclosing this paper in which you saw my advertisement, and ask for the picture, "Fruit and Flowers." If you write, I WILL GIVE IT TO YOU. And you another present worth 20c, which will prove very useful to you. H. K. RANKIN Publisher, Nashville, Tenn.

SOME STATISTICS.

(By J. M.)

Rockcastle has a population of 15,000. Counting five to the family would make 3000 families. Supposing each family possessed two dozen glass fruit jars averaging 12 inches in height. By placing these jars end to end it would form a line reaching from Livingston to Brodhead, 16 miles. Counting old and new brooms, each family is supposed to have three or more on their premises, making in all about ten thousand. These brooms placed end to end would reach from Mt. Vernon to a point one mile north of Brodhead, 7 miles. Unwrapping the wire, used in making these brooms, and connecting it in to one piece would furnish wire enough to build a telephone line from Mt. Vernon to Junction City, 35 miles. If all the empty oyster, peach, tomato and other cans used twelve months in the county were gathered up and placed end to end in a line, the line would extend almost across the county from East to West, or starting at Wildie would make a solid line of cans reaching to Hazel Patch. If these cans were attached singly by a string or cord to as many dogs and allowing one foot for can and string and three feet for dog and starting them howling along in one direction, following each other, there would be a string of dogs and cans reaching from Mt. Vernon to Danville, not to mention runaway horses etc. If this novel proposition should ever be carried out it is suggested that this pack should route its trip through Lancaster so as to give our good friend Louis Landrum the benefit of the "musical" yelping of the purps and the rattling of the cans.

Of the flour, meal and ship-stuff brought to the county every twelve months, a path could be made by laying down the sacks end to end that would reach from Mt. Vernon to Stanford, 25 miles.

During the year 1906 there passed through Mt. Vernon 91,250 railroad cars. These cars, if put into one train would reach from Knoxville to St. Louis and have a fifty mile string of cars to spare. It would require 4,562 locomotives to move this big train; and by making a speed of 30 miles per hour it would require 23 hours to pass a given point.

This kind of cough and cold cures, and healer of lungs is guaranteed by all druggists, 50c. and \$1.00. Trial bottle free.

It restores nervous energy—and through its invigorating influence upon the nervous system, the organs are strengthened. The heart action is better; digestion improved, the sluggish condition overcome, and healthy activity re-established.

"Dr. Miles' Nerve is worth its weight in gold to me. I had a good physician but got no relief. I could not eat, sleep, work, or stand. I was nearly crazy. One day I picked up a paper and the first thing that met my eyes was an advertisement of Dr. Miles' Nerve. I concluded to try it and let the doctor go, and did so. After taking two bottles I could dress myself. Then I began taking Dr. Miles' Heart Cure and now I can work and go out, and have told many the benefit I have received from these remedies and several of them have been cured by it since. I am fifty-nine years old and pretty good yet."

ANNA R. PALMER, Lewistown, Pa.

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
